About this example
The repayment example assumes that you remain in school for 4 years and have a 6 month grace period before beginning repayment. It is based on the highest starting rate currently charged and associated fees. For loan amounts more than $2000, repayment will last 15 years, once the initial principal payment is made. For loan amounts more than $1400 but not more than $2000, repayment will last 49 months, once the initial principal payment is made. For loan amounts of $1400 or less, repayment will last 37 months, once the initial principal payment is made. You are not required to make any payments on your loan while you are in school, although you may make payments of interest or principal and interest at any time while you are in school.
